

MEET THE TEACHER!

The Basics!

Hi! My name is Jamie Hencmann. Last year, I taught kindergarten half time and was a literacy coach for teachers half time in the Differentiated Roles program. I am thrilled to be at Southmoor this year! Join me on this wonderful adventure.

A little about me...

I was born in Denver, Colorado. When not teaching you can find me playing with my daughters camping, biking or attending fun family events across Denver. We love the zoo, Museum and botanical gardens.

My Education!

I attended Metro State College. After college, I taught second grade for one year. The following year I moved to kindergarten where I developed a passion for early childhood education. I truly love my students and treat them as if they were my own. For graduate school, I received a Master's in Curriculum and instruction from Lesley University.
